## On-Location Training Programme on 'Enhancing Rural Livelihood – Farm / Off-Farm Sector' (21 to 23 October 2024)

Introduction: Self Help Groups (SHGs) & Joint Liability Groups (JLGs) have emerged as effective institutions not only for providing timely and affordable credit to poor and needy, but also for enhancing rural livelihood options. The positive experience and outcomes of SHG/JLG Bank Linkage Programme shows that SHGs/JLGs offer good business potential for the participating banks in enlarging client base, mobilizing small deposits, dispensing micro-credit, providing loans to micro enterprises, etc. Initiatives of Government of India (GoI) and NABARD provide valuable support to the livelihood promotion activities through capacity building, financial support, provision of appropriate linkages, etc. Whereas GoI has initiated the National Rural Livelihood Mission primarily to organize SHGs and make them capable of evolving into self-employment ventures, NABARD provides multiple support through its Entrepreneurship Development Programmes and other schemes aimed at development of marketing and other linkages. Further, programmes like "One District One Product" launched with the objective of enabling value chain development and aligning with support infrastructure, aims to provide enterprises the benefits of economies of scale. In India, more than 12 million sellers earn their livelihood by selling or reselling products and services. However, only 15,000 of these sellers (0.125% of the total) have enabled e-commerce. E-retail has been out of reach for the majority of sellers, especially from small towns and rural areas. The Open Network Digital Commerce (ONDC), a platform established by GoI and supported by multiple stakeholders including NABARD, recognises the unique opportunity to increase e-retail penetration from the existing 4.3% to its maximum potential in India. The deepening of e-commerce through involvement of micro and small businesses to reach maximum potential, it is felt, will lead to further evolution of newer micro enterprises as also upscaling of existing enterprises, given the vast / humungous size of opportunity available. The varied nature of micro enterprises, often providing critical and customised solutions to local level problems, presents a difficult proposition for bankers as well as development agencies to identify needs, contemplate solutions, provide support, aid in upscaling efforts, etc.

In the above context, a three-day programme has been scheduled, focusing on all relevant areas pertaining to enhancing rural livelihood opportunities both in farm and non-farm sectors. The programme will focus on nurturing and developing rural livelihoods, project features and appraisal of micro and small enterprises, provision of linkages with a view to improving sustainability, support schemes, etc.
