In Campus Training Programme on Financial Inclusion for VIKSIT BHARAT - Capacity Building of Change Agents

(22 to 24 July 2026)

Introduction:

Viksit Bharat (Developed India) is a national vision aimed at transforming India into a fully developed, inclusive, and prosperous country. It focuses on achieving high economic growth, improving infrastructure, ensuring social justice, and enhancing the overall quality of life for all citizens. The concept emphasizes key areas such as economic development, where India seeks to become a global economic leader through industrial growth, innovation, and entrepreneurship. It also highlights social development, including better education, healthcare, gender equality, and poverty reduction to ensure that no section of society is left behind. Another important aspect of Viksit Bharat is sustainable development, which promotes environmentally friendly practices and responsible use of resources. The vision encourages the use of modern technology, digital governance, and green energy to balance growth with environmental protection. Good governance, transparency, and citizen participation are also essential components of this vision. Through initiatives, reforms, and inclusive policies, the idea of Viksit Bharat aims to build a strong, self-reliant, and globally respected nation. In short, Viksit Bharat represents India's aspiration to become a developed nation marked by economic strength, social equality, technological advancement, and sustainable progress.

Financial Inclusion (FI) ensures that all individuals and especially the underserved have access to basic financial products and services including banking, credit, insurance, pension, digital payments, etc. Promotion of financial inclusion will promote economic growth, reduce inequalities, encourage entrepreneurship, support digital and transparent economy, empower women, reduce regional imbalances, strengthen social security, etc., in tune with upliftment of the excluded population, which is one of the major agendas of GoI and NABARD. Creation of Financial Inclusion Fund (FIF) is one of many initiatives in promotion of financial inclusion. The major activities by NABARD in this sphere include formulation of schemes for financial literacy, knowledge dissemination, creation of infrastructure, facilitating technology adoption by banks and policy advocacy. NABARD has supported Financial Literacy efforts through various initiatives keeping in mind its importance to augment demand for financial services, especially for those offered on the digital platform. Further, to augment the supply side of the financial ecosystem, NABARD has also extended support for onboarding to digital platforms, improving connectivity and meeting regulatory requirements. Considering the capacity building needs of the stakeholders of this FI initiative, this programme has been designed.

Objectives:

By the end of the programme, the participants will be able to:

- ❖ Explain the background and the need for introducing Financial Inclusion as a National Policy
