In Campus Training Programme on Off Site Surveillance and Sustainable Compliance of NABARD Inspection - Effective Utilisation of ENSURE and Supersoft

(31st August to 02 September 2026)

Introduction: Onsite and Off-site Supervision under E-CAMELSC demands a robust data driven system of management for Supervised Entities where the continuous consolidation, monitoring and analysis of data helps the bank to build systems of effective risk management, internal checks and control and compliance. Transition to Risk Based supervision requires effective utilization of this data for internal decision making as well as submission of sustainable compliance to NABARD by the bank.

For facilitate this, NABARD has provided two portals viz. ENSURE & Supersoft which have proved to be effective channels for the flow of supervisory returns and data between the banks and NABARD. Many instances of delayed reporting, data inaccuracies and deficient compliance have been attributed to inadequate proficiency in the knowledge and working of these portals on part of the banks. The program attempts to train adequate number of personnel in the banks at all levels who can strategically utilize the different features and capabilities of these online portals for both internal and external purposes.

Objectives: By the end of the programme, the participants would be able to: -

- ❖ Provide a comprehensive overview of the ENSURE portal and its evolution.
- ❖ Train participants on the submission of various types of returns.
- ❖ Enhance understanding of user roles and access management.
- ❖ Develop skills in data analysis and interpretation using ENSURE.
- ❖ Address bank-specific challenges in return submission and compliance.
- ❖ Analyse various reports generated through ENSURE Portal
- ❖ Promote sustainable compliance practices and documentation standards
