## On-Location Training Programme on Fintech and Financial Inclusion

#### (23 to 24 September 2024)

Introduction: The term FinTech (Financial Technology) refers to software and other modern technologies used by businesses that provide automated and improved financial services. The fast and innovative models such as Mobile Payments have changed the way we manage our finances. Tech-savvy customers, especially millennials expect money transfer, lending, loan management and investing to be effortless, secure and scalable, ideally without the assistance of a person or visit to a bank. FinTechs attract interest both from users of banking services and investors of funds, who see them as the future of the financial sector. The FinTech companies across the nation are taking advantage of GoI and RBI initiatives such as PMJDY, Aadhaar enrolment, licensing of SFBs, Payment Banks etc., for expanding financial inclusion by leveraging technology. In order to better understand the Fintech eco-system in India, the resultant effects on Bank Business Models and the impact on global financial services, BIRD, Mangaluru is conducting a 2-days on-location training programme on FinTech and Financial Inclusion for bankers. This training programme will focus on the areas relevant to FinTechs and Financial Inclusion.
